THE MENTORSHIP

A three-month programme to finish release-ready house records — mentored live, together, by two of the industry's most trusted names.

STRICTLY LIMITED · 6-10 PRODUCERS · APPLICATIONS OPEN

THE INVITATION

Something we've never done before.

For years we've helped producers finish records. Jon through his Essentials system and one-to-one artist development; Joe behind the mix and master of releases spanning underground institutions to major labels.

This is the first time we're doing it together — in the same room, live.

For three months, a small group of serious producers will work directly with both of us. Two sets of world-class ears on your music, every single week. You bring the tracks. We take you from rough idea to finished, release-ready record — and show you exactly how we'd make the decisions ourselves.

No pre-recorded course to watch alone. No guessing whether it's good enough. Just direct, honest feedback from two people who do this at the highest level — until your music is ready to send.

— JON & JOE

TWO MENTORS · ONE ROOM

Two names you know. Now in one room.

We've crossed paths for over a decade — the same lineups, the same labels. For the last six months we've been in the same room, putting the final touch on records for some of the biggest names in electronic music.

YOUR MENTORS

Two careers. One goal — your record, finished.

JON KONG

PRODUCER · MIX ENGINEER

15+ years and 500M+ streams across underground and commercial dance music. Known less for making records than for helping others finish and sign theirs — 200+ developed, 40+ signed.

JOE IGLESIAS

MIX & MASTER · WOODLANDS

One of the scene's most trusted mix & mastering engineers. His studio Woodlands — built with the acousticians behind Abbey Road & Metropolis — is the final touch on records from rising talent to Polydor and Cloonee's Hellbent. Plugin developer and FaderPro educator.

TWO SETS OF EARS

A producer's instinct and an engineer's precision on every track.

FINISH, DON'T JUST LEARN

One outcome: finished, release-ready records. Not theory.

FEEDBACK EVERY WEEK

Your tracks critiqued live, every week, by both of us.

Between us — over a billion combined streams, mixes and masters for majors and the biggest underground labels, a worldwide plugin line, and 200+ producers developed.

IS THIS YOU?

Who it's for.

THIS IS FOR YOU IF...

- + You already produce (intermediate or above)
- + You have tracks you can't quite get over the line
- + You're serious about releasing and getting signed
- + You want direct feedback — not another course to watch alone
- + You'll put the work in between sessions

THIS ISN'T FOR YOU IF...

- You're a complete beginner starting from zero
- You're looking for a quick hack or shortcut
- You want to learn passively without sharing work
- You're not ready to invest the time or effort
- You'd rather stay comfortable than be pushed

GOOD TO KNOW

Level?	Built for intermediate-and-up producers who already make music.
Time?	One live session a week, plus time to action feedback on your tracks.
Miss a session?	Every session is recorded, so you'll never fall behind.
Investment?	Covered on the call, once we know it's the right fit.

THE NEXT STEP

Apply for a spot.

We keep these groups small on purpose — 6 to 10 producers per intake — so every person gets real attention from both of us. Here's how to join:
